Hi, Rebecca.

Accu-Screen Inc.'s News

Can Viruses Really Come Pre Installed?

A number of electronics products made in Chinese factories have been found to contain viruses that steal passwords, distribute spam, and open up computers to hackers. For instance, digital picture frames sold at Sam's Club contained a previously unknown virus that steals gaming passwords and disables antivirus software, according to security researchers at Computer Associates. Viruses have also been found on digital picture frames sold by America's Biggest Retailers, as well as on iPods and some navigation equipment.

Ethics During The Hiring Process

Traditionally, the hiring process has been a process of question and answer where the company representative is asking the questions and the candidate is providing the answers. It is generally accepted that the candidate is going to only show the company their best qualities and will attempt to hide the undesirable ones. In return, the interviewer is only going to show the candidate the companies' most desirable traits in an attempt to convince the applicant to become part of the team. Honesty is often suborned for the agendas of each party. Unfortunately, this is still the way the hiring process is done at many companies.

Security Must Evolve

At the European Computer Audit, Control, and Safety Conference, Lisa R. Young of Carnegie Mellon University's Computer Emergency Response Team stressed the necessity for the evolution of security alongside business. Young said the desire to control certain aspects of security has led to the tendency to impede the progress of business, a factor that she warned would not be an ultimate solution to safeguarding enterprises. CERT's Resiliency Engineering Framework facilitates business operations by streamlining areas such as training and compliance management, guiding a company by boosting operational efficiency.

Timely Opportunities

Disabled Employees Compare Well with Coworkers

Disabled employees are just as dependable and productive as non-disabled coworkers. That's the conclusion of a newly released study commissioned by the Chicagoland Chamber of Commerce's disabilityworks initiative. This groundbreaking study also found that the cost of accommodating employees with disabilities was low: An average of just \$313. For details about how disabled and non-disabled employees compare, click "Full Article."
